Kelley:

There is no analytical data to review for this package (Mn in water). At this point our assessment would only state that “no raw data was provided. No data validation was performed on this data package.” Let me know if this is sufficient. If not I would need the support data for my review.

Thanks,

Hi Ex. 4 - CBI I am assuming that the attached e-mail is notice of the results of recent sampling at HW-8. Limited #of samples - analyzed for Mn only. No new SAP - followed procedures in existing SAP for Sup Round 1 - for collection/analysis. Please let me know if you need additional info for your review.

Thanks again!
